### In December

-We learned about the ways in which animals prepare and adapt for the winter.

- The children were master builders as they made dens and caves for the animals to hibernate in.

-They were able to play a bear hibernating numbers game, using dice, bears and cute little snow caves.

-We played a fun Brain Game- clap down & snap up. They had to pay close attention to which I did and respond correctly. It was fun and they were great listeners.
