

# Discovering God's World

## APRIL 2018

Mrs. Holtorf & Mrs. Hareldson

### Discoveries

*"In the beginning, God created the heavens and the earth"*

~Genesis 1:1

God has given us the great gift of a curious mind to explore and enjoy the world in which we live.

Now that Spring is here, it is a great time to explore the world of plants. We will see the wonders enclosed within a tiny seed. We will look at the needs of plants as we discover their parts and the important job each does.

#### Weekly Themes:

Week 1: Needs of plants/ Parts of plants

Week 2: Seeds (germination)

Week 3: Flowers (pollination)

### Announcements:

**Spring Break:** March 30th-April 6th

**Good Friday Services:**

March 30th @ 5:30 and 7:00

### Bible Devotions

Week 1: Work: Noah

Week 2: The Parable of Good Soil

Week 3: Honesty: Daniel

### In March

-We played with a variety of ramps as we explored motion and acceleration.

- The students placed different materials on the ramps to create friction to slow down their vehicles.

- They measured how far their cars would go when they changed the height of their (tube) ramps.

-The Three Little Pigs story was our inspiration for our building centers and our lesson on wind.

- The students played with wind which they learned is air in motion.
